

## **Recommendation Letter for Mr. Abadi Gebrewahd**

**To: The Admissions Committee  
Ph.D. Program in Geosciences  
The University of Texas at Dallas**

Dear Members of the Admissions Committee,

It is with great enthusiasm that I write this letter in strong support of **Mr. Abadi Gebrewahd's** application to the **Ph.D. program in Geosciences** at the University of Texas at Dallas. As his research collaborator for several years, I have had the privilege of witnessing his exceptional academic dedication, remarkable analytical capabilities, and profound commitment to advancing the field of geosciences, particularly in the area of **geological hazards and related research**.

Mr. Abadi stands out as an **excellent academician and an innovative researcher**. His scientific curiosity and meticulous approach to research have allowed him to make meaningful contributions to projects addressing complex geological problems, including **landslide susceptibility mapping, seismic risk assessment, and geo-environmental monitoring**. His deep understanding of geospatial analysis, field-based data collection, and advanced modeling techniques consistently results in rigorous, high-quality research outputs.

During our collaboration, Mr. Abadi has demonstrated **outstanding skills in research design, data interpretation, and scholarly communication**. He approaches scientific challenges with creativity and precision, always integrating multidisciplinary perspectives to enhance the impact of his work. His ability to combine theoretical frameworks with practical applications makes his research particularly valuable for addressing pressing environmental and societal challenges associated with geological hazards.

Moreover, Mr. Abadi's professionalism, teamwork, and leadership qualities make him an inspiring collaborator. He fosters an atmosphere of intellectual engagement, willingly shares his expertise, and is deeply committed to mentoring younger researchers. His academic excellence is further reflected in his consistent publication record, presentations at national and international conferences, and active involvement in community-oriented geoscience initiatives.

I have no doubt that Mr. Abadi will bring the same level of intellectual vigor, dedication, and scholarly excellence to the Ph.D. program at the University of Texas at Dallas. He is exceptionally well-prepared to pursue advanced research in geoscience, and I am confident that he will make significant contributions to both the academic community and the broader field.

I therefore **strongly recommend Mr. Abadi Gebrewahd** for admission to your Ph.D. program without reservation. Please feel free to contact me if you require any additional information regarding his qualifications or research accomplishments.

Sincerely,

Yewuhalashet Fissha, PhD
